DETAILED ACTION

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-3, 10, 14, 15, and 68-81, drawn to a removable suspension device, classified in class 211, subclass 181.1.
- II. Claims 28, 29, 31, 32, 82-87; 88-94; 95-98; and 99-101, drawn to a suspension device, classified in class 220, subclass 319.
- III. Claims 102-111; and 112, drawn to a suspension device, classified in class 220, subclass 200.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as use without a rack (see claim 68) or a container (see claim 73). See MPEP § 806.05(d).

Inventions I and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention III has separate utility such as use without a rack (see claim 68). See MPEP § 806.05(d).

separately usable. In the instant case, invention II has separate utility such as use without a container (see claims 104 and 112). See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
